In-Person Talk with John Sayles on his new novel about Henry Ford

A Sweeping Historical Novel from an Oscar-Nominated Filmmaker

John Sayles' *Crucible* is a complex and vast historical novel about Henry Ford — the Elon Musk of his day, in more ways than one — and his attempt to rule not only an automotive empire.

It is an epic tale ranging from the 1920s through the second World War, featuring violent labor disputes, misbegotten jungle expeditions, a tragic race riot, and the gestapo tactics of Ford's private army.
