

Lakeland Library Cooperative

The Role of Leadership In Change Management

Friday, April 24, 2015
9:00 am - 4:00 pm
(Registration 8:45 am - 9:00am)

Managers/Library Directors, have you ever wanted to spend a day mapping out the steps to address a change that's relevant to your work instead of spending the day putting out fires while worrying about how you're going to do your work? Then this workshop is for you.

Learn about...

- The Role of the Change Leader
- The Role & Interactions that Occur with Stakeholders
- Addressing Key (& Difficult) Questions of Stakeholders
- The Cultural Components of Change: Taking Stock of Your Organization's Capacity for Change & Applying that Knowledge to Your Change Efforts
- Strategies for Addressing Resistance to Change

Participants should come prepared with a specific issue they are considering or planning to change in their organization. Throughout the workshop, participants will develop their action plans, sharing and deriving feedback from others, with the intention of having a change process mapped out for their specific issue.

Presenter: Brian Mortimore, SPHR

Location

Howard Miller Public Library
14 S. Church Street
Zeeland, MI 49464
