

# Growing a Healthy Library Culture

Category: Workplace Culture

Culture is all around us - it's the water for the fish!

In 2022, library science graduates looking for jobs ranked a positive, healthy workplace culture as being an even more important attribute than salary. A toxic workplace culture can impact mental health, decrease productivity, and lead good employees to work elsewhere. If you haven't looked at your organizational culture recently, it may be time for a refresh.

Attendees will learn how to:

- Differentiate between mission, vision, and values
- Identify hidden and stated values that already exist in an organization
- Develop a culture or values statement in your organization
- Keep the values alive by incorporating them into hiring, evaluations, and the daily work of the library

# Telling Your Library's Success Story:

## Part 2: Designing Engaging Infographics

Categories: Advocacy, Leadership, & Professional Development

In the second part of the webinar series, participants will delve into the world of graphic design and practical application of their infographic knowledge. They will learn about color theory, typography, and layout design principles to create visually impactful infographics.

### Learning Objectives for Part 2:

- Understand the fundamentals of graphic design, including balance, hierarchy, consistency, and contrast.
- Learn practical techniques for creating visually appealing and professional-looking infographics.
- Apply the acquired knowledge to design and create their own infographics to tell their library's success stories effectively.

# The Five Practices to Becoming More Grateful

Category: Wellness

Being grateful involves showing appreciation for the things in life that are meaningful or valuable to you. It consists, among other things, of showing others that you really value and appreciate what they've done for you, or what they've given you.

Taking a moment to notice and acknowledge the things you're grateful for each day can brighten your outlook, boost your mood, and help you feel more positive in the face of challenges. And it can have a powerful impact on the people and pets that are important and valuable to you.

The Five Practices you will learn how to apply in your life:

1. Have No Expectations
2. Accept That It Isn't Fair
3. Stop "Shoulding" On Yourself
4. Be Aware of Your Stories
5. Life's What You Make It (Just Show Up)

Date **November 22, 2023**

# What About Homeschoolers?

## Programming for Homeschoolers and their Parents

Categories:  
Children's & Programming

Join librarian and homeschool alum Elizabeth Stinnette as she explores the homeschooler mindset, discusses ways to connect with homeschool students and their parents, and presents real-life examples of library programs that have (and haven't) worked to meet the needs of this unique community.

In this program, attendees will learn:

- The history of homeschooling
- How homeschool students are different from and similar to their traditionally-schooled peers
- What never to ask homeschool students or their parents
- How to connect with your local homeschool community
- How to create programs that meet their educational needs
